### DETAILED ACTION

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 3, 5-7 and 20-22, drawn to a multilayer structure polymer.

Group II, claim(s) 2 and 4, drawn to a polymer blend.

Group III, claim(s) 8 and 23, drawn to a decorative laminate.

Group IV, claim(s) 9, 13, 16-18, 24, 27, 28, 30, 32 and 33, drawn to a laminate comprising film of polymer of claim 1 bonded to another base layer (non-fluororesin).

Group V, claim(s) 19 and 25, drawn to a laminate comprising film of polymer of claim 1 bonded to a fluororesin.

Group VI, claim(s) 11 and 26, drawn to a photocurable acrylic resin film.

Group VII, claim(s) 29 and 31, drawn to a method of making injection molded laminated article.

2. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: while the special technical feature is a multilayer structure polymer prepared by the sequential polymerization. This multilayer structure polymer is shared between all seven groups, it

does not offer contribution over the prior art, because said multilayer structure polymer is disclosed in EP1,249,339 A1 in paragraphs 0112- 0113.

3. A telephone call was made to Daniel Pereira on July 17, 2008 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. S. Nakarani whose telephone number is (571) 272-1512. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached on (571) 272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
